**Hosted by the**

**Government of the Russian Federation**

**through the**

**Rosatom Technical Academy**

**Obninsk, Russian Federation**

**21 to 25 September 2020**

**Ref. No.: EVT1905941**

## **Information Sheet**

### **Introduction**

This standard training course is based on the needs expressed by numerous States from around the world and is organized on a regular basis. The course will focus on the security of radioactive material in use and storage and aims to provide participants with an overview of nuclear security in their own countries and organizations.

### **Objectives**

The objectives of the course are provide participants with: (i) an overview of the international legal framework for nuclear security, assistance programs, IAEA guidance and the examples of regulatory frameworks for the security of radioactive material; (ii) an appreciation for the need to protect

radioactive material, associated facilities and associated activities from unauthorized removal and sabotage; (iii) a grounding in the basic principles and methodology of the security of radioactive material and associated facilities; and (iv) an opportunity to test and apply what they learned in classroom exercises.

## Target Audience

Participants should be responsible for, or closely involved in, their national programmes for regulating radioactive material security, or be users of radioactive material. They should have a background and related experience in operational aspects relating to the use of all categories of sources, radioactive source regulation, security for radioactive materials or associated facilities and/or response forces.

## Working Language(s)

English and Russian

## Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **7 August 2020**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Please note that the IAEA is in a transition phase to manage the entire registration process for all regular programme events electronically through the new InTouch+ (<https://intouchplus.iaea.org>) facility, which is the improved and expanded successor to the InTouch platform that has been used in recent years for the IAEA's technical cooperation events. Through InTouch+, prospective participants will be able to apply for events and submit all required documents online. National authorities will be able to use InTouch+ to review and approve these applications. Interested parties that would like to use this new facility should write to: [InTouchPlus.Contact-Point@iaea.org](mailto:InTouchPlus.Contact-Point@iaea.org).

## Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)** which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **7 August 2020**.

## Visas

Participants who require a visa to enter Russian Federation should submit the necessary application as soon as possible to the nearest diplomatic or consular representative of Russian Federation.
